PriGrow IV Medium

Cat.No.	**Unit**
TM004	500 ml

Cat. No.	TM004
Name	PriGrow IV Medium
Description	**abm**'s PriGrow Media Series for mammalian cell culture is composed of high-quality, specific formulations for optimal cell growth. PriGrow media is offered as a serum and antibiotic-free basal formulation to give end-users the flexibility of further supplementation, as required. Each lot has been fully tested and optimized to support the growth of the intended cells and has undergone quality control measures to test sterility, pH, osmolality and endotoxin levels. Special media modification is available as a Custom Media Service, please contact a technical representative at technical@abmgood.com for more details.
Unit	500 ml
Endotoxin Level	≤ 1EU/ml
Osmolarity	287-317 mOsm/kg
pH	7.0-7.6
Sterility	Pass
Appearance	Liquid
QC	Each lot has been fully tested and optimized for its ability to support in vitro cell culture. The testing parameters include: adherence rate (where applicable), typical morphology, and metabolism of the tested cells. Additionally, the media has been tested for sterility, pH, osmolality and endotoxin levels.
Storage Condition	Store at 2-8°C.
